Foliage Plant Library CD

Information is what everyone seems to want more of today. Tropical Computers Foliage Plant Library CD has 305 of the most popular indoor and flowering plants, complete with images in 3 sizes. Easily run by your computer, you can search the plant files by names, light levels, height and more. This valuable tool is perfect for educating technicians, customers and others about identifying and caring for plants.

Green Plants for Green Buildings is a national information campaign working in conjunction with the interiorscape industry to inform professionals and the public about the numerous benefits of interior plants. Win the opportunity to educate your employees or customers with this selection of colorful GPGB publications. Each publication is 4 pages and comes in a pack of 50!

- The Building Isn't Green Until the Plants Arrive
- The Ten Best Plants for Green Interiors
- 10 Reasons For Including Plants in a Green Interior
- Bottom Line Benefits of a Green Workplace
